Description

KOLA Brand Plant Food is a biostimulant with an NPK rating of 0-0-0. KOLA is a mixture of over 70 different elements and minerals which act on a plant's cellular process, improving strength, nutrition uptake, and drought resistance. KOLA raises the pH of the water, soil, or other medium it is added to.

KOLA Brand Plant Food is non-toxic and contains no added chemicals or preservatives. Because this product has not been induction sterilized, this product is not recommended for human consumption.

DIRECTIONS:

- Add 1/2 – 1 teaspoon (2.5mL – 5mL) per gallon (4L) of water for hydroponic systems.
- Add 1 teaspoon (5mL) per gallon (4L) of water every third watering for dirt/soil systems.
